

JENTSCHMANN AG
 SWISS PRECISION, COMPETENCE AND INNOVATION

Jentschmann AG - the inventor of the ultrasonic duvet production

Dear Sir or Madam,

At the INTERZUM trade fair in Cologne, Jentschmann AG will present its unique ultrasonic cutting and welding machine for the automated production of duvets or mattress panels.

Your benefits:

- Significant reduction of production costs
- Fully automated finishing process
- Constant quality from thin to thick material
 (100 gsm - 750 gsm)

The duvets were welded and cutted length- and crosswise accurately by ultrasonic technology. Result is an unique and nice appearance of the edges by imitating a binding. The entire production process is of high quality standard.

After the automatic label insertion and welding, the duvets are finished and ready to be rolled/folded and packed.

Visit us! Look and see your benefits of the ultrasonic technology.

Our booth is in:

Hall 9.1, booth B-031

Our competent consultants Calo Liberti and Sascha Hanft are looking forward to seeing you!
